About Callystro

Callystro develops creative, innovative and engaging solutions for the education and gaming industries. Callystro is run by professionals with close to 60 years of experience working for/ with top tier global companies.

An informal office culture (yeah, no ties!), opportunities to learn and work on the latest in technology, create stuff that matters and be part of a company building process are some of the things you will enjoy while working here.

Our studio is located in Mangalore, India.
